Combining elevated aesthetics and performance, Maharam's M Series comprises richly colored woven textiles designed for universal appeal. Enlisting the design studio's material expertise and interest in technical innovation, styles in the accessibly priced M Series offer recycled content and short lead times as well as abrasion resistance and bleach cleanability for versatile application. Woven with post-consumer recycled polyester, Mode and Meld's substantial basket weaves resemble the luminous, smooth hand of wool on different scales. Messenger and Merit explore cross-dyeing across technical and dimensional constructions to create heathered, solid, and bicolor impact. Metaphor's variegated yarns create subtle striation with a dry linen-like hand that offers refined color, lightfastness, and bleach cleanability, while Method's tailored twill texture is primarily woven with SEAQUAL® YARN that blends post-consumer recycled content and repurposed marine plastic.
